THE *Land has not been ſurveyed, but is ſuppoſed to contain* 140 *Acres, and being of the beſt Kind, and diſtant but a few Miles from the City of New-York, it is thought to be a very valuable Farm: There are ſeveral convenient Buildings upon it, a ſufficient Quantity of Wood, a flouriſhing bearing Orchard and many other Fruit Trees. CATHERINE AND THE LITTLE MAIDEN,

OR THE

Sixth Chapter of the Firſt Book of Iſaac *the* Scribe.

1. NOW Catherine was the wife of Henry ſurnamed Moore, the King's ſervant, the ſame who ruled over all the land of the Yorkites, from the borders of the ſalt ſea even unto the lakes of the wilderneſs, a very great country.

2. In the King's name ruled he, and he governed the people with wiſdom and with mercy, according to all that is written in the covenant of the King's of the Albionites, wherewith they covenanted with our fore fathers of old.

3. Moreover when the King's wrath was kindled againſt the Americkites becauſe of their oppoſing the tax-gatherers, Henry ſpoke mildly of them, yea he wrote letters unto the King after this manner.

4. Let not my Lord the King be angry with his ſervants the Americkites becauſe of this thing, for behold they be miſtaken, neither is it of an evil ſpirit that they have done it, for they love my Lord the King even as their father, but their ſpirits were vexed becauſe of the tax-gatherers and they were ſurpriſed.

5. Theſe things did Henry, therefore was he honoured exceedingly throughout all the land of the Americkites, and the people bleſſed him ſaying, for he doth that which is right in the ſight of the Lord, neither walketh he in the ſteps of Bernardus the ſon of Belial, who made the Boſtonians to ſin.

6. And they bleſſed Catherine alſo, becauſe of her goodneſs for ſhe intreated for the poor and the needy, the feeble and they that had no friend, yea ſhe comforted the widow, and the tears of the fatherleſs wiped ſhe away.

7. As the breezes of Sharon, as the ſun beams of of the ſpring to the Boſom of him that hath been ſick, even ſo is the preſence of Catherine, the hearts of the meek rejoice before her, and the humble man holdeth up his head, for ſhe ſpeaketh kindly unto them and her words are as the ſound of a ſweet inſtrument.

8. Now Catherine had but one ſon, and he abode in the land of the Albionites, for his mother had ſaid unto Henry, is he not the ſon of our loves, let him I pray the tarry here, leaſt peradventure we periſh together, and there be none to be called after thy name? So the lad tarried in the land of the Albionites, even in the great city where dwelleth the King.

9. And the heart of Catherine yearned after her ſon, and ſhe ſpake unto Henry ſaying, let me I pray thee return unto the land of our nativity, that I may behold my ſon and bleſs him, and take order for his welfare.

10. And Henry ſaid go, and the Lord be with thee, ſo Catherine entered into the ſhip, even the ſhip of Iſaac the Scribe, ſhe and her men ſervants and her maid ſervants.

11. Moreover to Catherine appertained a little Maiden, ſhe was the daughter of an Hibernianiteſs, and her father was a Captain of fifty.

12. And it came to paſs whilſt they ſojourned in the land of the Americkites, her mother fell ſick of a diſeaſe and died, and behold no one cared for the child, neither ſuckled they it, ſo that it was well nigh unto periſhing.

13. And the thing was told unto Catherine the wife of the Chief Governor, and ſhe ſent and commanded that the child ſhould be brought unto her.

14. And Catherine ſaid unto her handmaids, behold the child hath been ſore neglected, now therefore go ſtraitway and waſh her and comb her hair, and cloath her in a garment of fine linen and bring her unto me again.

15. So they haſted and did according to all that their miſtreſs had commanded them, and behold the child was comely and well favoured.

16. And when they brought her unto Catherine, ſhe found favour in her ſight, for her bowels yearned towards the child becauſe it had no mother.

17. And ſhe took her and kiſſed her, and laid her on her boſom, and the child clung to her neck.

18. Then ſaid Catherine unto the Chief Governor, behold my Lord ſhe hath no mother, ſhall I take her; and he ſaid take her, and the Lord ſhall bleſs thee becauſe of the child, and he kiſſed it.

19. So Catherine took her, and the child became unto her as her own daughter from that day forward, and it grew and proſpered.

20. And when the thing was told unto the people, the fame thereof went throughout all the land of the Americkites, from the borders of the Canadites, even until thou comeſt to the city of the Floridites, and they of the weſt who dwell in the wilderneſs and live by prey.

21. And all the people rejoiced, and they bleſſed Catherine and the Chief Governor.

22. And they ſang a new ſong: Rejoice oh little daughter of the Hibernianiteſs, rejoice and be exceeding glad, for the Lord hath been gracious unto thee, and helped thee in the day of thine adoption.

23. Behold thou waſt an alien in a ſtrange land, and none cared for thee, thou hadſt no mother neither a nurſe; lo now thou art beloved of the great, and the mighty fondle thee in their arms; rejoice oh little daughter of the Hibernianiteſs, rejoice and be exceeding glad, for the Lord hath been gracious unto thee.

24. What is more helpleſs than an infant, what more feeble than the young babe? Behold thou waſt like a young bird whoſe father the arrow of the archer hath overtaken, and as the callow bird whoſe mother the net of the fowler hath beguiled; but the Lord who is ſtrong to ſave, the God of Iſrael who is mighty to deliver, helped thee even in the day of thine adoption.

25. They have ſnatched thee from the jaws of deſtruction, even as one ſnatcheth a lamb from the jaws of the wolf; therefore will the Lord bleſs them and prolong their days, and their children, and their children's children ſhall flouriſh in the land of their nativity; rejoice oh little daughter of the Hibernianiteſs, rejoice and be exceeding glad, for the Lord hath been gracious unto thee, and helped thee even in the day of thine adoption.

CADIZ, June 26.

THE St. Lucia and St. Dorothy, two frigates of war, ſet ſail this morning for Ceuta, to which place they have carried ſixty pieces of cannon, for its defence. Thoſe veſſels alſo took on board about fifty malefactors, who had been condemned to work on the fortifications.

Hamburgh, July 24. According to letters from Copenhagen of the 11th inſtant, matters ſeem not to be ſettled; Count Arenſdorff has been diſmiſſed from his regiment of Norwegian Guards, for not taking proper care in arreſting Col. Falkenſchild, who had by that means an opportunity of burning ſome papers of conſequence. Several other perſons have been diſmiſſed from their offices, and the ſalaries of others greatly leſſened.

LONDON,

Auguſt 7. Yeſterday his Excellency the Spaniſh Ambaſſador and his lady were at court, to take their final leave of their Majeſties.

We are aſſured that the Spaniſh Ambaſſador, Prince Maſſerano, will ſet off for Paris the 14th or 15th inſt. at fartheſt.

We hear that Thomas Wroughton, Eſq; his Majeſty's Ambaſſador at the court of Warſaw, has received letters of recal.

The reaſons urged by Lord Hillſborough in council, for oppoſing the Meſſiſippi ſcheme, were as follow: firſt, that the mother country could not, at preſent, ſpare any migration. Secondly, the voyage from Europe there, on account of the difficulty of getting up ſo rapid a river, could not, on an average, be leſs than three months; a circumſtance that muſt greatly impede both the ſale of the produce of that eſtabliſhment, as well as be an inconvenience in its communication with the mother country. And laſtly, that the whole face of the country was ſo ſpread over with plantations, it ſtood in more need of a company of *foreſters* than a civil government.

It is the general opinion of thoſe moſt converſant in Britiſh affairs, that Count Rantzaw owes his diſmiſſion or more properly ſpeaking his baniſhment, to the courts of Berlin and Stockholm.

By the laſt letters from Paris, we learn, that the Duke d'Harcourt has refuſed to take upon him the command of the troops in Normandy, and that the Duke of Richlieu has ſtrongly ſolicited to be recalled from his government of Bourdeaux.

They write from Sicily, that an inſurrection had

broke out in that Iſland, by which many lives were loſt. on account of the advanced price of all ſorts of grain.

By a letter received by the laſt packet from Liſbon, we are credibly informed that Mr. Connell, the Britiſh merchant, remained in priſon when the letter came away, and there was no appearance of his enlargement.

ST JOHN, September 2, 1772.

On Monday morning laſt, about one o'clock, aroſe here the moſt terrible hurricane of wind and rain that ever was known in the memory of the oldeſt man living. This dreadful tornado ſeemed deſtined by providence to complete what the ſtorm on Thurſday laſt only threatened us with. The wind and rain increaſed with the morning, and ſeemed to blow with greater vehemence between nine and ten in the forenoon. To attempt to raiſe by words an adequate idea of our diſtreſſes, were the height of preſumption. Let it ſuffice thoſe that are only unconcerned readers of our cataſtrophe that the Almighty (no doubt of his own infinitely wiſe purpoſes) permitted a total convulſion of the four winds to ſtrip us of what was left of the town of St. John on the memorable 17th of Auguſt, 1769.

I ſhall paſs over as unworthy of my reader's attention a deſcription of the deſtruction of obſcure buildings, but of theſe above a third were diſtroyed.

To obſerve ſome order in my attempt I ſhall begin with the eaſtern part of the town. The houſe on Mrs. Knight's hill, purchaſed ſome years ago, and deſtined for a government houſe, was carried totally off its ſite, and not a veſtige left, by which means the wife of Mr. George White, merchant, was killed on the ſpot by the falling of a beam. Mr White had his collar bone broke ſo that his life is deſpaired of. The wind found entrance into the Free-Maſon's lodge, which is let to a company of Comedians, who had obtained his Excellency's permiſſion to play here, and deſtroyed all their ſcenery. &c ſo that it will take them up a fortnight before they can put it in *ſtatu quo*, and open it; the ſhop of Obediah Todman, Copperſmith, Brazier and Plumber, lately deſtroyed by fire is blown to the ground, all the turrets and many houſes in the ſame ſtreet quite weſt to the wharfs, are either blown down or much damaged, many houſes are carried into the harbour, above a third of the town of St. John is deſtroyed; the news from all parts of the country are truly deplorable; the houſe of the Hon Col. Farley is intirely blown down, as alſo the buildings on the eſtate called Briggin's over againſt it The dwelling-houſe of Nathaniel Humphrey's, Eſq; in Popeſhead diviſion is alſo deſtroyed.

We hear the dwelling houſe of John Mayer, Eſq; of Belfaſt diviſion is levelled with the Ground, and in his lady and Children's ſight to the houſe of Joſeph Wickham, Eſq; his infant daughter's leg was broke. We are told the King's Hoſpital at Engliſh-harbour was blown to the ground, whereby ten patients and their nurſe periſhed; the town Hoſpital of St. John is blown to the Ground, whereby one patient, a blind man loſt his life, and others much bruiſed, but we do not hear of any other lives being loſt. One Dr. Montgomery we hear loſt his life, being knocked on the head by a beam of the houſe as he was attempting his eſcape, as alſo one Mr. Philpot who is ſaid to be a manager on Gunthorpe's eſtate, was panick ſtruck, and died of the fright. In ſhort the time would fail me to tell of private ſufferings of people drove from their habitations with ladies and their infants in their arms, going from door to door ſeeking ſhelter, but none to take them in.

This dreadful ſtorm continued without abating any thing of its fury till near ſun down on Monday evening, all which time people in general were ſecuring their doors and windows, ſtill expecting a return of the hurricane. The dwelling houſe of Alexander Willock, on his eſtate called the Folly, is blown to the Ground; take the whole Iſland in groſs, not one houſe in ten is ſaid to be ſtanding, but all are materially damaged, our canes that were in plants are torn up by the roots, ſo that God only knows what our miſeries will terminate in. The miſeries of this Iſland by the permiſſion of Providence by fire, drought and tempeſt, are paſt all deſcription. His Majeſty's barracks here are greatly damaged, his Excellency General Payne's loſs at Clarke's-hill, it is ſaid, will amount to near 1500 l. ſterling. When this Gazette went to preſs, we had not learnt one third of the damage done by this lamentable ſtorm. We are juſt informed, that the houſe and works of Chriſtopher Hodges, Eſq; in Popeſhead diviſion are intirely deſtroyed, and moſt of his mules and cattle killed. As further intelligence comes to hand, we ſhall be careful to communicate it to the publick per firſt opportunity.

The ſeat of the Hon. William Warner, Eſq; deceaſed, at Stony hill, now the reſidence of the Hon. Thomas Warner, Eſq; has ſuffered much damage.

NEW-YORK.

[The Storm of which we have had ſuch terrible Accounts from ſeveral Iſlands in the Weſt Indies; was no leſs dreadful in St. Croix, from whence a Veſſel was diſpatched as an Expreſs for this Place, addreſſed to Meſſieurs Kelly and Lott. Merchants; but not being able to get in here was obliged to put into Philadelphia.——The following Accounts are taken from the publick Prints of *that Iſland, of the 4th September.*]

CHRISTIANST ÆD. Sept. 4.

On Monday night laſt, blew the moſt violent hurricane that has ever been known here, or, perhaps in any Iſland in the memory of Man. Words are wanting to deſcribe the horrors of the night; the dreadful roar of raging winds, and waves; the cruſh of falling buildings; the cries and groans of the ſufferers; the dying and wounded, together with tenfold darkneſs, made viſible only by the Meteors, which, like balls of fire ſkimmed along the hills, formed a moſt terrible and moſt dreadful ſcene. When morning came, the diſmal effects of its fury were ſeen in every ſtreet, and particularly on the riſing ground, where ſcarce a houſe is ſaved, ſo that nearly one half of the houſes in this place were ſeen thrown down or greatly damaged, which, with the ſight of the ſeveral dead bodies, filled every face with aſtoniſhment. All the veſſels in the harbour, early in the night broke from their moorings and were drove on ſhore, where they remain, moſt of them many yards on dry land. Accounts from the Country are yet worſe if poſſible, nearly all the dwelling-houſes, and every Negro-houſe on the plantations ſwept away by the violence of the gale; and from Frederickſtad we hear, there are but three houſes left ſtanding. It is remarkable, that the water in almoſt every butt is become brackiſh. At preſent cannot give an exact account of the unhappy perſons who were killed, as every hour comes loaded with its diſmal tale.

By his Royal Majeſty of Denmark, Norway, &c. appointed Governor General over the Joint Daniſh Iſlands in America, I ULRICH WILHELM Von ROEPSTORFF.

"MAKE KNOWN: That whereas this Iſland has undergone ſo general a deſolation by the moſt dreadful and hitherto unheard of hurricane, in the night betwixt the 31ſt Auguſt and 1ſt inſtant, whereby about one half of the buildings in this country have been thrown down and blown away, ſo it well behoves not to pray and admoniſh, ſtill leſs to command, that they whoſe houſes have been preſerved ſtanding, do each take in and lodge 1 or 2 families of the unhappy, deſtitute of houſe and lodgings; yet ſhould there unexpectedly be any left without lodgings, ſuch have only to addreſs themſelves to me, as the Churches ſhall be opened for them."

"Nor can it be thought, that any Merchant, Captain, or others can think ſo baſely and unchriſtian-like, as on this occaſion, to ſet intolerable high prices on what proviſions or other things they may have to diſpoſe of, to reap undue advantage by what God has in mercy ſpared to them No! ſo mean a manner of thinking cannot be ſuppoſed, for which reaſon no fixed prices are here appointed; it is only commanded, that every one who has either proviſions or lumber to ſell, ſhall, on a fit and viſible part of his houſe, cauſe to be ſtuck up a liſt with the prices he will ſell for. Who ſells for the moſt reaſonable, will ſurely be the beſt Burgher; ſhould any ſell any thing of the above mentioned for higher prices than ſtuck up, then ſhall the retained be confiſcated."

The Placart further adviſes, that all who have conveniencies ſend out canoes, and catch as many fiſh as poſſible—That any perſon who finds and does not reſtore any goods to their right owner ſhall be deemed and puniſhed as a thief—No negro or ſuſpected white perſon to ſell any thing except ground proviſions, graſs, firewood, and ſmall ſtock, under the like penalty, no negro to be out without a permit, after the evening gun—That he has with the privy Council reſolved, that from that time the 2d Sept. All kinds of proviſion, building materials, hoops, ſtaves, and negroes clothing, ſhall be imported to St. Croix free of all duty. But to all who ſhall prove their total inability and want, bread ſhall be diſtributed gratis ſo long as any remains; finally, he adviſes, that none be diſpirited, but reſume their lawful callings with cheerfulneſs, and that proper repreſentations ſhall be made to the King, to obtain neceſſary relief.

SANTA CROIX.

Yeſterday arrived here the the ſchooner Hopewell, Capt. William Lynn, from St. Euſtatia, who parted his cable about nine o'clock on Monday morning laſt; twenty five ſail of veſſels put out at the ſame time, the wind continued blowing exceſſive hard from the North, till about 11 o'clock in the forenoon, and about 12 the wind ſhifted to the Eaſt until one, then came to the S. S. E. where it blew a moſt terrible gale, and ſo continued till about twelve o'clock at night, at which time it began to moderate, and on Wedneſday morning he ſaw 4 veſſels in a moſt diſtreſſed ſituation, three without maſts, and a large ſhip lying on her beam ends, but was not able to ſpeak to them, and yeſterday ſaw a ſhip under jury maſts go into St. Thomas.

It is ſaid that his Excellency, beſides many other occaſional donations, has ſet apart a very handſome ſum to be ſhared amongſt the pooreſt ſufferers; It is to be hoped, that all whom God has enabled, and on this occaſion ſaved from notable damage, will go and do likewiſe.

It is ſaid, to the honour of the phyſical gentlemen, that they have not only with great aſſiduity applied all their art and ſtill where called, but have generouſly reſolved to make no charge on their books on this mournful occaſion.

This morning arrived here a large Dutch ſhip and an Engliſh ſloop, both under jury maſts.—— At the ſame time arrived the ſloop ——, Capt. Leighbourne from New York.

NEW-YORK, October 10.

On Thurſday, Sept. 24th, the Rev. Dr. MYLES COOPER, reſumed his Charge at KING'S COLLEGE.—He was conducted into the Hall by a Number of the reſpectable Governors of the Seminary, where he was addreſſed in an affectionate Manner by the Profeſſors. The following *Students*, next, in Behalf of their reſpective Claſſes, welcomed his Return, in animated and elegant Addreſſes, delivered with a WARMTH which teſtified the higheſt Affection, and rendered their Performances *truly eloquent*; Frederick Philipſe, Robert Auchmuty, John Roberts, and Peter Kiſſam.

To each of theſe the Preſident returned a polite and affectionate Anſwer.

A *Forenſic Debate* (as uſual on that Day) next commenced, on the Queſtion "whether a Spirit of Conqueſt was ſalutary to the Romans? The *Affirmative* was maintained with great Art and Addreſs, in a very elegant Performance, by Mr *Jauncey*, and the *Negative* by Mr. *Stevens*; whoſe judicious Strictures on the Arguments of his Opponent, and ſenſible Obſervations, on the Subject, did him much Honour, and were extremely entertaining to the Audience. Their Arguments were then briefly ſummed up, and Determination given by the Moderator, in Favour of the Gentlemen on the *Negative* Side of the Queſtion.

Some Exhibitions in *Oratory* were next made, by Meſſrs. Shreve, Seaman, Auchmuty and Nicholl, whoſe juſt Delivery and graceful Geſture, met with univerſal Applauſe.

The *Students*, then expreſſed their Eſteem and Affection for Mr. Inglis, in very elegant Addreſſes, delivered by the following Gentlemen, choſen by them for that Purpoſe; Meſſrs. Robinſon, Ogilvie, Douglas and Thomas.

The Whole was concluded by the Rev. Mr. Inglis, with a ſenſible and pathetic *Charge* to the Students, exciting them to Emulation in the Purſuit of Learning and Religion.

Saturday laſt the Ship Roſe, Capt. Chriſtopher Miller, arrived here from London, but laſt from the Downs in ſeven Weeks. With him came the following Paſſengers, viz. Miſs Montreſour, Siſter to Capt. John Montreſour of this Place; Sir James Jay, Capt. Thomas Miller, and Mrs. Miller; Mr. Robert Alexander, of this City, Merchant; and Mr. Humphrys.

To the inexpreſſible Grief of all who had the Happineſs of an Intimacy with him, departed this Life, on Wedneſday the 30th ult. of a Conſumption, which he bore with Chriſtian Fortitude to the laſt, Mr. JOSEPH JOLY, of Elizabeth Town, Merchant. A Gentleman of the moſt unblemiſhed Character. A kind Huſband, tender Parent, and ſincere Friend. He was a perfect Pattern of Honeſty, Punctuality, Induſtry, and all other Virtues that could render his Death an univerſal Loſs to the Community.

The Ship America, Capt. Harvey, failed for Briſtol laſt Sunday.

Extract of a Letter from St. Euſtatia, dated September 3, 1772.

"The Cataſtrophe of the partial Deſtruction of this Iſland is ſo recent in my Memory, and ſo much miſery may be expected as the Conſequence, that I cannot reſtrain the Inclination I have of giving you an Account of it.——On the 31ſt of Auguſt at 10 o'Clock in the Morning there were great Signs of a Tempeſt, the Veſſels in the Road conſiſting of 14, were driven from their Anchors by the Wind at N. W. about 11 o'Clock came on a Hurricane and Whirlwind, which laſted near three Hours, in which Time about a Quarter Part of the Houſes of the Hill Town were raſed from their Foundations and blown into the Sea; about the ſame Quantity half deſtroyed; a third ſhaken ſo much that they will require to be rebuilt, and the remaining Part much damaged, about 12 People killed out right with the falling of Houſes, &c. and many others wounded.

On the Bay about a tenth Part of the Buildings cruſhed to Pieces, almoſt all received ſome damage by the falling of Houſes or Part of Houſes from the Hill, together with Rocks, Stones and Parts of the Cliff. This was accompanied and followed with a Torrent of Rain which, with the Rubbiſh that came with it, and the Sea riſing and paſſing its common Bounds, made the Bay a dangerous Situation; had this Weather broke out in the night, its very likely ſome Hundreds of Lives would have been loſt. The oldeſt Livers in this Iſland have never ſeen ſuch Weather here, and what adds to the Diſtreſs is, that there is not one Barrel of Flour in the

Twenty five Pieces of Eight has been rejected for a Barrel of Flour, sixteen and a Half Pieces of Eight is given for a Barrel of Bread; Rice sells at seven Pieces of Eight per neet Hundred. *Unless the Hand of Providence is in our Favour a Famine must ensue.*

Of those Houses that I have seen blown off their Foundations, are Mr. Jan Dewindt's, Son to the Governor, Daniel Hawley's, those you may remember were on each Side the Governor's, but Wooden Buildings, were crushed upon their Foundations, the Secretary's Dwelling House and Publick Office, (its said the Records lost and destroyed) Roosevelt's, Ducker's, Stewart's, the Dutch Church, Jews Synagogue, Court House, and most of the Houses in the Fort: Henshe's Loft House, Thomas Thomas's, the Freemasons Lodge House and about fifty others, in Rubbish as flat to the Ground as if hailed down with Fire Hooks. Vocason's Loss is computed at 20,000 Pieces of Eight. They could not so much as save their Furniture. Life was the only Jewel—during the Whirlwind, all kinds of Furniture were flying in the Air like Chaff.

A Sailor Boy found a Bag of Joes belonging to Vocason in Number 400 and returned it to the Owner, who was so generous as to reward his Honesty with 100 that he counted out to him immediately.

The Plantations have suffered in Proportion with the Town. I was obliged to quit my House and take Shelter in the Negro House in the Side of the Cliff. A Vessel from St. Kitts gives an Account of their suffering more at St. Kitts than we have. In Basseterre one House standing, three in Sandy Point, the Vessel came here to look for Provisions, not having one Barrel of Flour there. The People on our Hill, in many Houses were obliged to skuttle their Floors and thereby let down their Families and People that were perishing for Want of Shelter into their Cellars, some of which were half full of Water; this was your Friend Creigh's Situation and that of his Family; Cruck's Sugar House, which is three Stories high, went off with one Blast from its lowest Foundation, the Sugar Baker and another Man in the upper Loft who had just done letting his Family down to the Cellar from that upper Loft by Skuttles through the Floors, cut through at that Juncture, they were saved but can give no Account of it, but very much bruised, it is supposed the Surf drove them a Shore.

It you can imagine the Situation of People in such distress, you may know something of those despairing Cries that are uttered at the Apprehension of immediate Death, by them who think they are the Subjects of Almighty Vengeance; some thought the Elements were at Strife and would soon bring on a Dissolution of Nature others cryed out the last Day is come, how shall we appear before our God, who is a consuming Fire? Let us my dear Friend take Advantage from the Warning.

Now THEREFORE by virtue of a certain act of the Lieutenant Governor, the Council and General Assembly of the colony of New-York, passed the 8th day of January, 1768, entitled, *An act for the more effectual collecting of his Majesty's quit rents in the colony of New-York, and for partition of lands in order thereto*;" and also to continue one other act, entitled, an act to explain part of an act, entitled, an act for the more effectual collecting of his Majesty's quit rents in the colony of New-York, and for partion of lands in order thereto; passed the 31st day of December, 1768, I do hereby give notice that John Dumont, Esq; James Roe, and Christopher Tappen, all of the town of Kingston, persons not interested in the said lands, are appointed Commissioners to make partion of said lot of land above mentioned; and that they the said Commissioners, will meet on Friday the 25th day of November next, at the dwelling-house of Michael De Noe, innholder in the precinct of the New-Paltz; and all persons interested therein are hereby requested to attend then and there for that purpose, either by themselves or their attornies. LONDON, July 20.

Three men of war now fitting out at Portſmouth are ſaid to be deſtined for North America, and their departure is haſtening with all ſpeed.

The Regiments deſtin'd for New-England are to be accompanied with a fleet laden with Proviſions, which is the reaſon of the Embargo laid in Ireland for three months.

July 21. One day laſt week a man convicted of uſury, and a great miſer, hung himſelf; and to ſave expences, ſtole the rope.

July 28. A correſpondent ſays, he had it from pretty good authority, that the Queen of Denmark is expected in London by the latter end of next month; and that Carlton Houſe is fitted up for her reception.

A letter from Edinburgh, dated the 29th ult. ſays, "The emigrations from Sutherland and its environs ſtill continue; ſeveral detachments of voluntary exiles having paſſed the Spey on Thurſday and Friday laſt, in their way to Grennock."

A correſpondent from Devonſhire informs us, that for ſome years paſt the French have been ſupplied with large quantities of wool from thoſe parts, for which they gave brandy, tea, &c. in exchange.

We are aſſured, notwithſtanding what has been ſaid to the contrary, that ſome of the ſervants of the houſehold have five quarters ſallary due to them, while others have not quite three due to them.

July 29. We are informed by a correſpondent, that the preſent pacific conduct of the French, proceeds from very oppoſite principles to the pacific conduct of the Engliſh. For as it is the beſt intereſt of the former to avoid a war with any power whatſoever, ſo it would be the beſt intereſt of the latter to obey the calls which have been repeatedly made on its pride, prudence, reputation and courage, by more than one enemy on the continent.

A correſpondent informs us, that the King is very deſirous Lord Chatham would take upon him the miniſterial department for the American colonies, and that it is not improbable ſuch an appointment may take place in leſs than a fortnight.

Extract of a letter from Legborn.

"Two letters, one from Cyprus, and the other from Cairo, have brought us a particular detail of the defeat of Ali Bey." The latter ſays, "On the 30th of April, Aboudaab and Abderhaman, whom Ali Bey had baniſhed on a ſuſpicion of their intention to revolt, entered this place at the head of a body of troops. They immediately engaged with Ali Bey's army, which was ſoon thrown into confuſion. On this Ali Bey left the field, and fled; but being purſued by Aboudaab, he was taken, with ſeventeen perſons of his train, loaded with heavy chains, and brought back to the enemy's camp in triumph. His chief Secretary and Treaſurer were ſeized, and all his officers were either beheaded or burnt. Not ſatisfied with theſe barbarities, they ſeized on the women of Ali Bey's camp, and dragged them round the publick places in triumph. It was imagined that Ali Bey himſelf would be ſent on board a veſſel alive to Conſtantinople."

July 30. It is currently reported that the Queen of Denmark will ſoon be in England; but we are aſſured, that laſt week at a council held upon that matter, it was by no means reſolved upon; and that a great Perſonage does not ſeem inclined that ſhe ſhould leave her preſent reſidence for ſome time, but is willing that proper perſons ſhould viſit her from England occaſionally.

Extract of a letter from the Hague, July 28.

"The laſt letters from Hanover adviſe, that the Queen Carolina Matilda of Denmark, celebrated her birth day the 22d inſt. with great ſplendor; on which occaſion there was an opera at Goerde, by performers which were ſent for from Hamburgh. Theſe letters add, that this Princeſs has at laſt pitched upon Zell for her reſidence during the winter, and that the Caſtle there is fitting up for her reception.

ST. JAMES's, *July* 31. His Majeſty in council, was this day pleaſed to order, that the Parliament which ſtands prorogued to Tueſday, the 11th day of Auguſt next, ſhould be further prorogued, to Tueſday the 29th day of September.

Auguſt 3. The report of a fleet having ſailed from Ferrol, for the Weſt Indies, was on Friday confirmed upon Change; from which it is more than probable, that the Spaniards are meditating ſome blow in that quarter.

There is a likelihood of war between the Ruſſians and the Auſtrians.

Auguſt 4. Joſhua Richardſon, Eſq; who for a long time was cruelly impriſoned at Boſton, for the ſuppoſed murder of one of the mob in Preſton's time, is appointed Marſhal of the Court of Vice Admiralty there, in the room of Charles Paxton, Eſq; reſigned!

Auguſt 5. It is now thought that Mr. Wilkes will be Lord Mayor for the year enſuing, and that Mr. Townſend will be his immediate ſucceſſor, this being the patriotic rotation.

The houſe of the H—s only, at Amſterdam, is concerned in the failure of Mr. Fordyce to the amount of near 100,000l. The whole ſum for which that gentleman and the houſe with which he was connected have failed, is ſaid to be equal to the enormous ſum of 190,000l.

The maſter of a veſſel from Havre de Grace declared on Friday at the Cuſtom Houſe, that eight ſail of the line, four frigates, and ſeveral tranſports, were lying at the harbour of Rochford, ready to ſail on the ſhorteſt notice.

Auguſt 6. Tueſday the Earl of Hilſborough had a great Levee at his houſe, at which ſeveral Weſt India merchants and colony agents were preſent.

Edinburgh, July 1. Monday ſe'nnight paſſed through Kincardine O'Niel, about 90 men, women and children, all from the ſhore of Sutherland, on their way to Glaſgow, from whence they are to embark for America; not above three in the whole company could ſpeak Engliſh, and even theſe very imperfectly.

And we hear from Dundee, that laſt week arrived there, upwards of 100 emigrants, with about thirty children moſtly at the breaſt, alſo, from the country of Sutherland, on their way to Greenock, to procure a paſſage to America. They ſay more will follow their example. They alledge the ſame reaſon for their conduct as the former emigrants from Sky, to wit, the enormous price of all ſorts of proviſions, and the oppreſſion of their ſuperiors.

BOSTON, September 24.

It is reported that the following ſalaries are appointed from home, viz. The firſt Juſtice of the Superior Court of this province, 400l. the other four Juſtices 200l. each, a year.—The Attorney-General 150l. a year; and the Solicitor-General 50l. a year.

And, that John Phillips, Eſq; late Captain of his Majeſty's Caſtle William, is appointed Fort-Major of that fortreſs, with a ſalary of 100l. ſterl. a year.

It is ſaid that Lord Harcourt is to be Lord Lieutenant of Ireland.

It is likewiſe ſaid, that the Earl of Hilſborough had reſigned as Secretary of State for the American department, on account of the ſettlement of a Government at the Ohio; and that Lord Dartmouth ſucceeds him in that department.

The Secretaryſhip of State for America is one of the moſt conſiderable employments in the gift of the Crown; it has the nomination of all the civil officers in every part of the Britiſh dominions beyond the Atlantic; and the revenues of theſe amount, upon a moderate computation, to 100,000l. a year.

MACHINE to dress FLOUR.

THE King has been pleased to grant unto JOHN MILNE of Manchester, his royal letters patent, for all his colonies in America, &c. for the sole making and vending his new invented machines, for the dressing the flour of wheat, &c. which machines are found to be of great utility by all persons who have them in use; they not only make the flour look better, but also make it use better, as they make it more lively, and will dispatch three times as much business in the same time, as the common method of bolting with cloths, and they will do that business at one operation, which, to be done with cloths, requires several, for they will dress fine flour, two seconds and three seconds, and clean the bran at one operation; or they may make two sorts, or only one sort of flour, by moving the partitions within the box, just as the person pleases who attends it; and considering their duration, are much cheaper than cloths. Also, his new invented machines for cleaning wheat, barley, &c. which takes out seeds, dust, &c. and will break and destroy smut-balls, and give a brightness and lustre to the grain.

The said machines are to be sold by JOHN MILNE, and Co. at their house in Manchester; or by applying to James Milne (son of the said John Milne), who is now at Mr. Nedham's, opposite Beekman's-slip, New-York.

Just imported in the last vessels from ENGLAND,

A fresh COLLECTION of the abovementioned

MACHINES.

To the PUBLICK.

HAVING had an experience of Mr. Milne's new invented patent machines, for bolting flour and cleaning wheat, at my mill, where they are now to be seen at work, at Long-Island—I think it my duty to declare, that they are a curious, expeditious and elegant contrivance, and what, in my opinion, will answer every purpose for which they are designed, and likewise be of great service to the publick. JACOB SEBRING, junr.

To the PUBLICK.

I think it incumbent on me, for the good of the community, and particularly of those who are manufacturers of flour, to declare, that upon trial, I have found Mr. Milne's machine answer the purposes of bolting, for which they are intended; infinitely better than the old method of doing it with cloths, as they really bolt three times as quick without the least exaggeration, and are a very ingenious contrivance.

THREE POUNDS REWARD.

RAN away, on Sunday the 20th instant, (from the subscriber) a negro man, named Manuel; he is about 6 feet high, pretty well set, 22 or 23 years of age, speaks slow, tho' very good English, and is a complete hand at farming business: Had on when he went away a white flannel jacket with leather buttons, a blue Cloth over his jacket, an old wool hat, and tarr'd tow trousers. 'Tis supposed he is gone to Connecticut from whence he was lately purchased, or to Long-Island where he is well acquainted, having tarried there some time, when he absented himself from his former master. Whoever will take up said negro and bring him to me the subscriber, in New-York, or secure him in any of his Majesty's goals, so that I may have him again, shall be intitled to the sum of THREE POUNDS, and all reasonable charges paid by THOMAS IVERS.

N. B. It's probable said negro may be gone towards Albany, as he was once back among the Indians.

John Keating,

AT HIS

PAPER MANUFACTORIES,

At and near New-York, makes

ALL sorts of paper and paste board, viz.

Brown, whited brown, Blue, and grey } Waste or wrapping paper, different sizes,
Purple sugar loaf, Cartridge and press } Paper
Printing and writing paper of various sorts and sizes
Paste board of all qualities and sizes

Which are to be sold at the lowest prices, at his store in Queen-street, near Burling's slip, where he gives the best prices for Linen Rags, according to their quality and fineness.

When it is considered that the above paper and other articles manufactured here, make a clear saving to this country or all the money that would have been sent out to purchase them from abroad, it is hoped that all those who really wish to promote the interest of America, and of this country in particular, with which their own interest is closely connected, will contribute their aid to the success of this undertaking, which cannot be effectually done without a constant care in saving and supplying him with those linen rags, which are generally destroyed or thrown away as useless, tho' they are absolutely necessary to a paper manufactory, which cannot be carried on without them.

To add to the difficulty of procuring a sufficiency of rags, considerable quantities have been collected here and sent to other colonies, whereby their manufactories have been supplied, to the injury of our own, with this material article: And tho' the legislature have not yet thought proper to prohibit the exportation of it, yet it is hoped a due regard to their own interest will incline the inhabitants of this country to supply a manufactory among themselves, preferably to those of another colony.

N. B. Good encouragement will be given to journeymen paper-makers. 33—
